

# FUGAPROOF GROUT PROTECTION

ALL TYPES OF GROUTING

- Ecological product: water-based
- Ready to use and easy to apply
- Safe for use with a spray applicator
- VOC-free: eco-friendly treatment
- Will not alter the colour of grouting
- Odourless
- Water-based technology: drastically reduces treatment times
- Can be applied to surfaces with residual moisture
- An A+ classified product in accordance with the French VOC regulation

## WHAT IT'S FOR

- Protects and sanitizes cement-based grouts
- Facilitates dirt removal and routine cleaning
- Prevents water and stains from being absorbed into the surface

## HOW TO USE IT

**No dilution required:** ready to use.

**Application:** Clean the surface using **FUGANET** detergent. When the surface is dry, spray directly onto the grouting and dry any excess product using a cloth. The surface can be walked on after 4 hours

### PACKAGING

750 ml bottles with spray nozzle in boxes of 6.

### COVERAGE (750 ML):

up to 850 linear metres

Coverage rates are indicative.

### WARNINGS

- Keep out of reach of children.
- Do not disperse into the environment after use.
- Protect can from frost.

### TEMPERATURES

Storage temperature: Between 5°C and 30°C.  
This product must be applied to surfaces with temperature between 10°C and 30°C.

### Caution:

Do not wet the surface in the first 24 hours after treatment. Any dry residues that were not removed during application can be removed with **CLEANER PRO**, diluted 1:30.
